Heavy Duty Metal Protector

Convenient Spray-On Metal Surface Protectant

AMSOIL Heavy Duty Metal Protector (AMH) is an easy-to-use spray-on product that protects metal surfaces, displaces water and silences squeaks. It effectively lubricates metal surfaces, leaving a dry wax-like film, without forming gum or sludge.

AMSOIL Heavy Duty Metal Protector helps protect metal surfaces that require a heavy-duty lubricant or are exposed to the damaging effects of salt, moisture or chemical corrosion. Ideal for hinges, wire ropes and springs, nuts and bolts, motorcycle or bicycle chains, and for undercoating wheelwells and other metal surfaces exposed to water, dirt or road salt.

- Helps protect against rust & corrosion, even in salt water
- Displaces water
- Stops squeaks
- Lubricates metal surfaces
- Leaves a dry, long-lasting, (wax-like) film
- Lubricant does not attract dust
- Does not sling off
- Sprays into hard-to-reach places
- Ideal for chains & other heavy-use items

Recommendations

Spray product on area to be treated. For best results, do not wipe off. Film carrier will evaporate, leaving Heavy Duty Metal Protector on treated surface.

Availability

AMSOIL Heavy Duty Metal Protector is available in 16-oz. spray cans.
